and other servants of the European Communities**

{SEC(2009)1466}

EXPLANATORY MEMORANDUM

CONTEXT OF THE PROPOSAL

Grounds for and objectives of the proposal

The Council has to decide each year, on a proposal from the Commission, on the adjustment of the rate of contribution to the pension scheme effective from 1 July.

General context

Under Article 83a(4) of the Staff Regulations, the Commission has to present to the Council each year an updated version of the five-yearly actuarial assessment, in accordance with Annex XII to the Staff Regulations.

Under Article 13 of Annex XII to the Staff Regulations, Eurostat has submitted the report on this assessment, which determines the rate of contribution required to maintain actuarial balance of the pension scheme.

A proposal is to be presented each year for adjusting the rate of contribution to the pension scheme.

Consistency with other policies and objectives of the Union

Not applicable.

- The legislation in force permits no alternative.

LEGAL ELEMENTS OF THE PROPOSAL

Summary of the proposed action

In accordance with Annex XII to the Staff Regulations, Eurostat has submitted a report on the actuarial assessment of the pension scheme. According to this assessment, the rate of contribution required to maintain actuarial balance of the pension scheme is 11.3% of basic salary.

Under Article 83a(4), where it is shown that there is a gap of at least 0,25 points between the rate of contribution currently applied (10.9%) and the rate required to maintain actuarial balance (11.3%), the Council is to consider whether the rate should be adapted, in accordance with the arrangements laid down in Annex XII.

Under Article 2(1) of Annex XII, the adjustment cannot lead to a contribution that is more than one percentage point above or below the valid rate of the previous year.

The Commission is therefore proposing that the rate of contribution be adjusted to 11.3% with effect from 1 July 2009.

Legal basis

Staff Regulations of officials of the European Communities, and in particular Article 83a thereof and Annex XII thereto.

Subsidiarity principle

The proposal concerns an area that falls within the exclusive competence of the Community. The principle of subsidiarity does not therefore apply.

Proportionality principle

The proposal is consistent with the principle of proportionality for the following reasons:

- Article 83a of the Staff Regulations provides for a Council regulation.
- The proposal has no financial impact on expenditure. The impact on revenue results directly from the application of the adjustment method provided for in the Staff Regulations.

Choice of instruments

Proposed instrument: regulation.

Other instruments would have been inappropriate for the following reasons:

- Article 83a of the Staff Regulations provides for a Council regulation.

BUDGETARY IMPLICATIONS

The impact on revenue of the adjustment to the rate of contribution to the pension

scheme is detailed in the financial statement annexed hereto.
