Proposal for a

COUNCIL REGULATION

adjusting with the effect from 1 July 2011 the remuneration and pension of the officials and other servants of the European Union and the correction coefficients applied thereto

{SEC(2011) 1436 final}

EXPLANATORY MEMORANDUM

CONTEXT OF THE PROPOSAL

Grounds for and objectives of the proposal

As is the case each year, under Article 3 of Annex XI to the Staff Regulations, the Council, acting on a Commission proposal based on the Eurostat report, must take a decision before the end of the year adjusting remuneration and pensions, with effect from 1 July.

General context

In accordance with Article 3 of Annex XI to the Staff Regulations, the adjustment to remuneration and pensions derives directly from changes in the purchasing power of salaries in national civil services (specific indicator), changes in the cost of living in Brussels (International Index), and economic parities determined by Eurostat.

The specific indicator measures changes in the net remuneration, exclusive of inflation, of national civil servants in Member States' central governments. Eurostat has calculated this indicator on the basis of information supplied by the eight Member States referred to in Article 1(4) of Annex XI.

The Brussels International Index measures changes in the cost of living in Brussels for EU officials. Eurostat has drawn up this index on the basis of information provided by the Belgian authorities.

The economic parities for remuneration establish the purchasing power equivalence of the remuneration paid in Brussels, as the reference city, with that paid in the other places of employment. Eurostat has calculated those parities in agreement with the national statistical bodies.

The economic parities for pensions establish the purchasing power equivalence of the pension paid in Belgium, as the reference country, with that paid in the other countries of residence. Eurostat has calculated those parities in agreement with the national statistical bodies.

LEGAL ELEMENTS OF THE PROPOSAL

Summary of the proposed action

In accordance with Article 1 of Annex XI to the Staff Regulations, Eurostat has drawn up a report on changes in the cost of living in Brussels, changes in the purchasing power of remuneration in national civil services, and the economic parities from which the various weightings derive.

3.1. ADJUSTMENT TO REMUNERATION AND PENSIONS IN BELGIUM AND LUXEMBOURG

The average change in the purchasing power of national civil servants' remuneration in the reference period measured by the specific indicator is equal to -1,8%.

The change in the cost of living in Brussels in the reference period, as measured by the Brussels International Index calculated by Eurostat is equal to 3,6%.

According to Article 3(2) of Annex XI to the Staff Regulations, the amount of the adjustment is obtained by multiplying together the specific indicator and the Brussels International Index calculated by Eurostat.

The proposed adjustment to remuneration and pensions in Belgium and Luxembourg is therefore 1,7%.

Under Article 3(5) of Annex XI, no weighting is applicable in Belgium or Luxembourg.

3.2. ADJUSTMENT TO REMUNERATION AND PENSIONS OUTSIDE BELGIUM AND LUXEMBOURG

Outside Belgium and Luxembourg, the adjustment to remuneration and pensions is obtained by multiplying the adjustment in Belgium and Luxembourg by the change in weightings and in the exchange rate.

The weightings applicable to remuneration, pensions and transfers of part of remuneration as set out in the Regulation have been calculated as follows:

- Weightings for OFFICIALS outside Belgium and Luxembourg:

Eurostat has calculated, in agreement with the national statistical bodies, the economic parities which establish the purchasing power equivalence of the remuneration paid in Brussels with that paid in the other places of employment as at 1 July.

The weightings applicable to the remuneration of officials and other servants employed in the Member States other than Belgium and Luxembourg are determined by the ratios between these economic parities and the exchange rates applicable as at 1 July.

- Weightings for PENSIONS outside Belgium and Luxembourg and weightings for TRANSFERS:

Eurostat has calculated, in agreement with the national statistical bodies, the economic parities which establish the purchasing power equivalence of the pension paid in Brussels with that paid in the other countries of residence as at 1 July.

The weightings calculated for the pensions of individuals living outside Belgium and Luxembourg in the various countries are determined by the ratios between these economic parities and the exchange rates applicable as at 1 July.

Under Article 17 of Annex VII to the Staff Regulations, these weightings are directly applicable to transfers made by officials and other servants.

Under Article 20 of Annex XIII to the Staff Regulations, the weightings apply only to the part of the pension corresponding to pension rights acquired before 1 May 2004.

- Date on which the weightings enter into effect:

These weightings take effect on 1 July for all places except those with a high cost-of-living increase, for which the weighting enters into effect on 16 May if the increase in the cost of living is greater than 6.3%, or 1 May if it is greater than 12.6%.

Changes in the cost of living outside Belgium and Luxembourg are measured by the change in the implicit indices. These indices are calculated by multiplying the Brussels International Index by the change in the economic parity.

The date of entry into force of this adjustment is earlier for the places referred to in the Regulation.

Exception clause

The Communication from the Commission to the Council providing supplementary information to the Commission Report on the exception clause of 13 July 2011 concluded that the loss in purchasing power of national and EU officials appears in line with the current economic and social situation, and this situation does not justify additional measures going beyond that loss. Therefore, the Commission is not in a position to apply the exception clause without breaching Article 10 of Annex XI to the Staff Regulations and the case law of the European Court of Justice.

Legal basis

The Staff Regulations, and in particular Annex XI thereto, constitute the legal basis.

Subsidiarity principle

The proposal concerns an area that falls within the exclusive competence of the Union. The principle of subsidiarity does not therefore apply.

Proportionality principle

The proposal is consistent with the principle of proportionality for the following reasons:

- Annex XI to the Staff Regulations provides for a Council Regulation.
- The financial burden results directly from the application of the adjustment method provided for in the Staff Regulations.

Choice of instruments

Proposed instrument: Regulation.

Other instruments would be inappropriate for the following reasons:

- Annex XI to the Staff Regulations provides for a Council Regulation.

BUDGETARY IMPLICATIONS

The impact of the adjustment to remuneration and pensions on administrative expenditure and on revenue is detailed in the financial statement annexed hereto.
