The Commission is currently engaged in consultations with Norway after the receipt of the advice of the ICES Advisory Committee on Fisheries Management (ACFM) which recommended, inter alia, herring TACs in the northern and Central North Sea (ICES Divisions IVa, IVb and IVc of 35 000 tonnes, 27 000 tonnes and 36 000 tonnes respectively.

As soon as the consultations with Norway have been finalised a complete proposal for all herring stocks will be made.
